## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-155 and 22, drawn to a guided pin driver apparatus, classified in class 227, subclass 140.
  - II. Claims 16-21, drawn to a pin driving apparatus, classified in class 227, subclass 148.

The inventions are distinct, each from the other because:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as such as a driving apparatus that does not require a guide to be utilized during operation. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
